

ARPIT KHAMESHRA

DevOps Engineer | Cloud Infrastructure | CI/CD | IaC

+91-9785863017 | arpitkhameshara164@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

DevOps Engineer with 1.5 years of experience in building scalable cloud infrastructure, implementing CI/CD pipelines, and automating deployments using AWS, Kubernetes, Docker, and Terraform. Skilled in monitoring, logging, and optimizing costs while ensuring high system availability and security compliance. Adept at cross-team collaboration to drive continuous improvement and innovation.

TECHNICAL SKILLS

Cloud & Infrastructure: AWS (EC2, ECS, RDS, S3, VPC, Route 53, Lambda, CloudFront, ELB, IAM, EventBridge, Lightsail), GCP (Compute Engine, Cloud SQL, Load Balancing, Networking)

Containers & Orchestration: Docker, Kubernetes (EKS)

CI/CD & IaC: GitHub Actions, Jenkins, Git, Terraform

Monitoring & Observability: Prometheus, Grafana, AWS CloudWatch, OpenTelemetry, SigNoz, Site24x7

Scripting, OS & Databases: Bash, Shell Scripting, Linux (Ubuntu, RHEL), Nginx, MySQL, PostgreSQL, Redis

PROFESSIONAL EXPERIENCE

Webledger Solution Pvt. Ltd. Surat, India

Sept 2025 – Present

DevOps Engineer

- Designed and implemented highly available infrastructure using AWS ECS, EKS, ELB, and RDS for large-scale applications.
- Built and optimized CI/CD pipelines with GitHub Actions reducing deployment time by 40%.
- Integrated AWS CloudFront and Route53 to improve application availability and reduce latency by 25%.
- Managed containerized applications using Docker, AWS ECR, and Kubernetes with enhanced security policies.
- Automated provisioning and configuration management using Terraform and Ansible.
- Enhanced monitoring with AWS CloudWatch and automated alerts via SNS for real-time insights.
- Documented architecture and deployment processes for knowledge sharing and reuse.

Tetari Innovations Bhilwara, India

Jan 2025 – Aug 2025

Associate DevOps Engineer

- Assisted in configuring AWS services like S3, EC2, and RDS for development environments.
- Deployed and managed Node.js applications in Docker containers.
- Automated server maintenance tasks with Linux shell scripting.
- Contributed to building CI/CD pipelines using GitHub Actions, accelerating developer workflows by 20%.
- Documented infrastructure processes and supported troubleshooting of AWS and Docker issues.

KEY PROJECTS

Office, Books and CRM Products

- Automated frontend and backend deployment with GitHub Actions, AWS S3, CloudFront, and ECS.
- Configured backend deployments on AWS ECS with automated Docker builds.
- Standardized deployment pipelines across multiple products, reducing release errors by 40%.
- Deployed Kubernetes workloads with Amazon EKS, RDS for databases, EFS for shared storage and Jenkins CI/CD for automation.

EDUCATION

B.Tech – Electrical Engineering

Graduation: June 2017

Arya College of Engineering and IT, Rajasthan Technical University, Kota | GPA: 6.9/10
